2001 Honda Odyssey

A benchmark in the automotive industry, the Odyssey is a tribute to Honda ingenuity. Its innovative design and class-leading safety are just part of what makes this minivan an original. The engine is powerful and fuel-efficient.* The Odyssey offers advanced technology in comfort and versatility. It's big enough to comfortably seat seven. Its first-of-its-kind Magic Seat,™ dual sliding doors and removable second-row seats are uniquely user-friendly. While a host of amenities and an available Honda Satellite-Linked Navigation System™ set the Odyssey apart from all the rest. And,

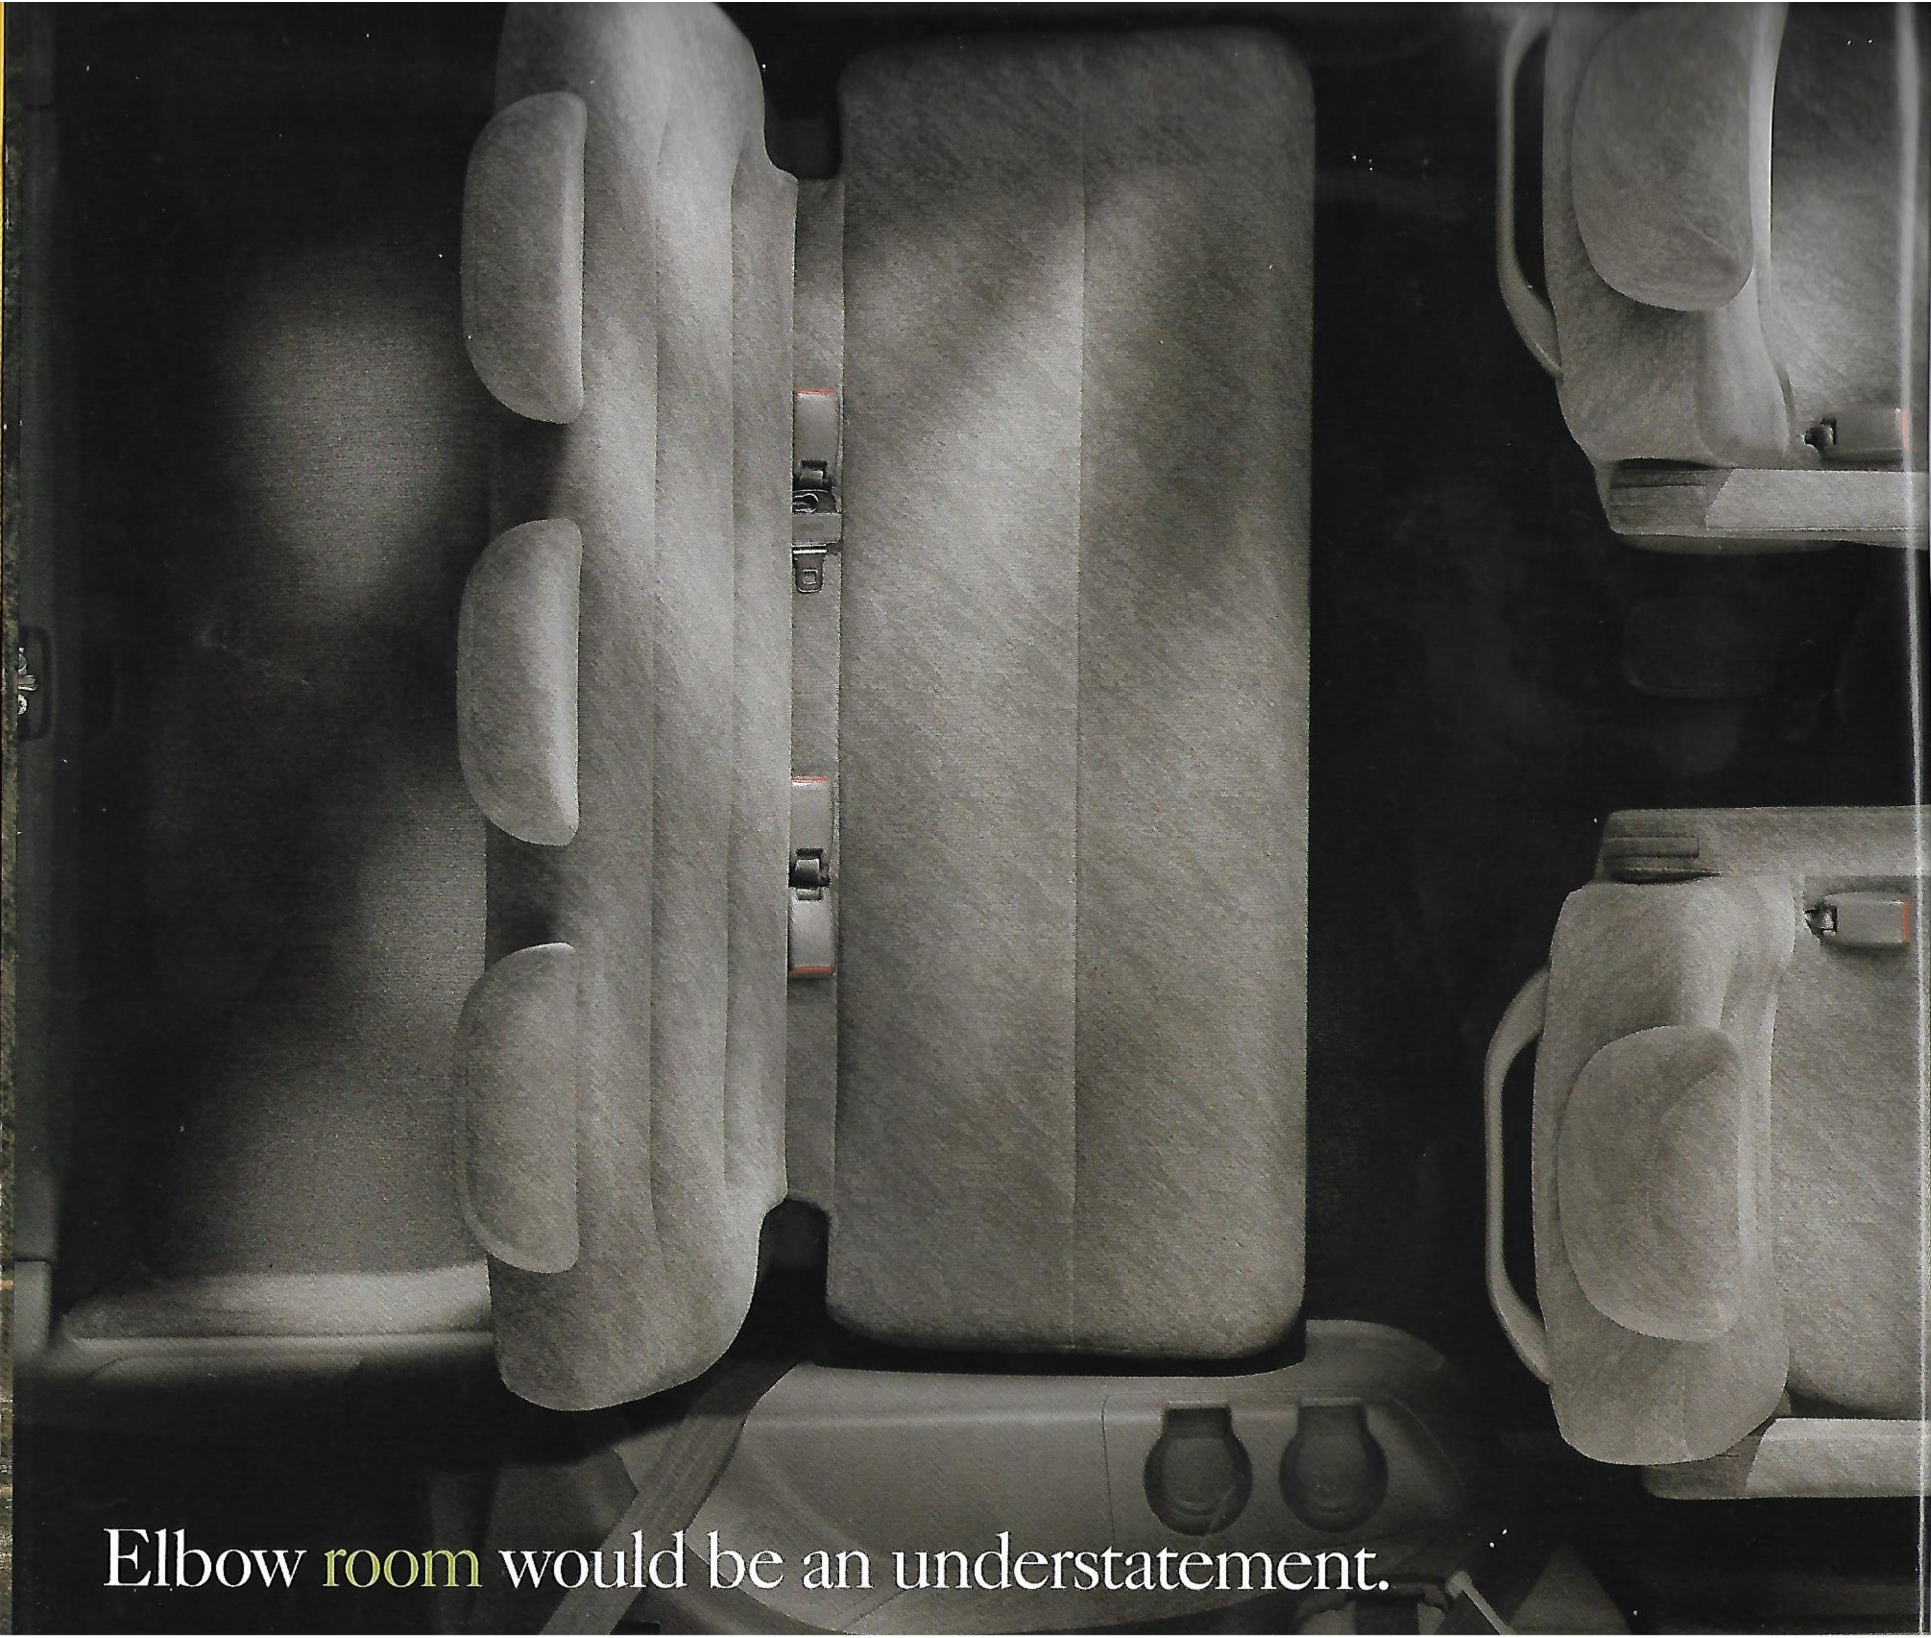

The Odyssey.

Odyssey EX shown in Mesa Beige Metallic.

Get away from it all, or bring it all along.

Elbow room would be an understatement.

Odyssey EX interior shown in Quartz with accessory cassette player.

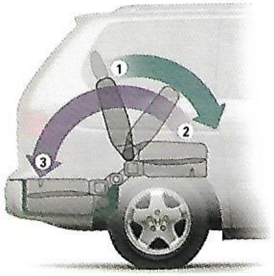

The minivan has come a long way. Still, it would be difficult to match the level of ingenuity and convenience in an Odyssey. For one thing, no other minivan offers you instructions on how to get you where you're going. The Honda Satellite-Linked Navigation System available on the EX, uses global positioning satellites to pinpoint your location in many parts of the U.S. The system can give you "turn-by-turn" directions, through both visual and voice guidance, to the many places stored in its DVD-based memory bank. Such as gas stations, airports, hotels, restaurants, theaters and ATM machines in metropolitan areas it covers.‡ In addition, the system can direct you to most residential and business addresses, and calculate the most efficient route to take. Your destination either can be selected from a simple "Yellow Pages"-style directory or can be entered directly on the touch-screen. Chances are, you'll wonder how you ever lived without one.

‡Only major streets, roads and highways are mapped outside these areas. See the vehicle's navigation system owner's manual for the current detailed coverage areas.

With all the seats in, there's room for seven to relax in comfort. Slide the removable second-row bucket seats together to make a bench seat or retract the third-row Magic Seat for more cargo space.

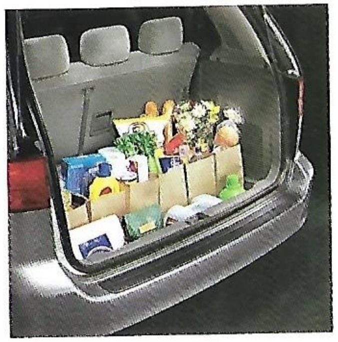

The **Magic Seat** folds and swings back, disappearing into the deep cargo well where it lies flush with the cargo area floor. So you can load up for a trip and still have the seat along, just in case.

Odyssey LX shown in Dark Emerald Pearl.

The **HomeLink remote system,** standard on the EX, lets you open a garage door without a separate opener. It can also activate two other remote features, like a gate and a lighting system.

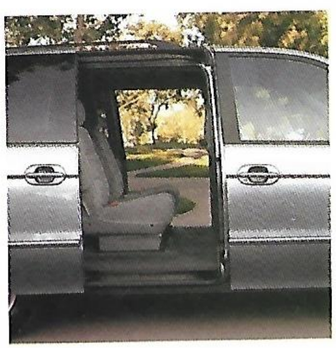

When the third-row Magic Seat isn't being stored in the **deep cargo well,** there's a lot of room behind the seat, 38.1 cubic feet to be exact, for things like groceries.

The Odyssey presents you with real choices in mixing passengers and cargo. Even when filled with a week's luggage, or after a long day of shopping, the Odyssey comes across as a true passenger's vehicle. Seatbacks are adjustable. The EX model even has an 8-way power adjustable driver's seat for the ultimate in comfort. You'll find legroom and headroom to spare. For convenience, there are nine beverage holders, storage pockets, covered bins, even a holder especially for your sunglasses. Front- and second-row seats can be moved forward and back, and have fold-down armrests. Ergonomically speaking, the Odyssey is superior, too. Gauges and controls are easy to read and reach. A sliding sun visor helps control glare from outside. While inside, you can enjoy your favorite music on an AM/FM stereo cassette. In the EX model you get a CD player with six speakers and audio controls that are mounted on the steering wheel for easy access. You'll even find 12-volt outlets and an Immobilizer Theft-Deterrent System. As if all this weren't enough, the Honda Odyssey has theater-style seating to offer everyone a commanding view inside and out. So you won't miss a thing.

The Odyssey was designed to keep everyone happy. That's why all three rows have **individual map lights and adjustable air-conditioning vents.** The EX also has automatic climate control.

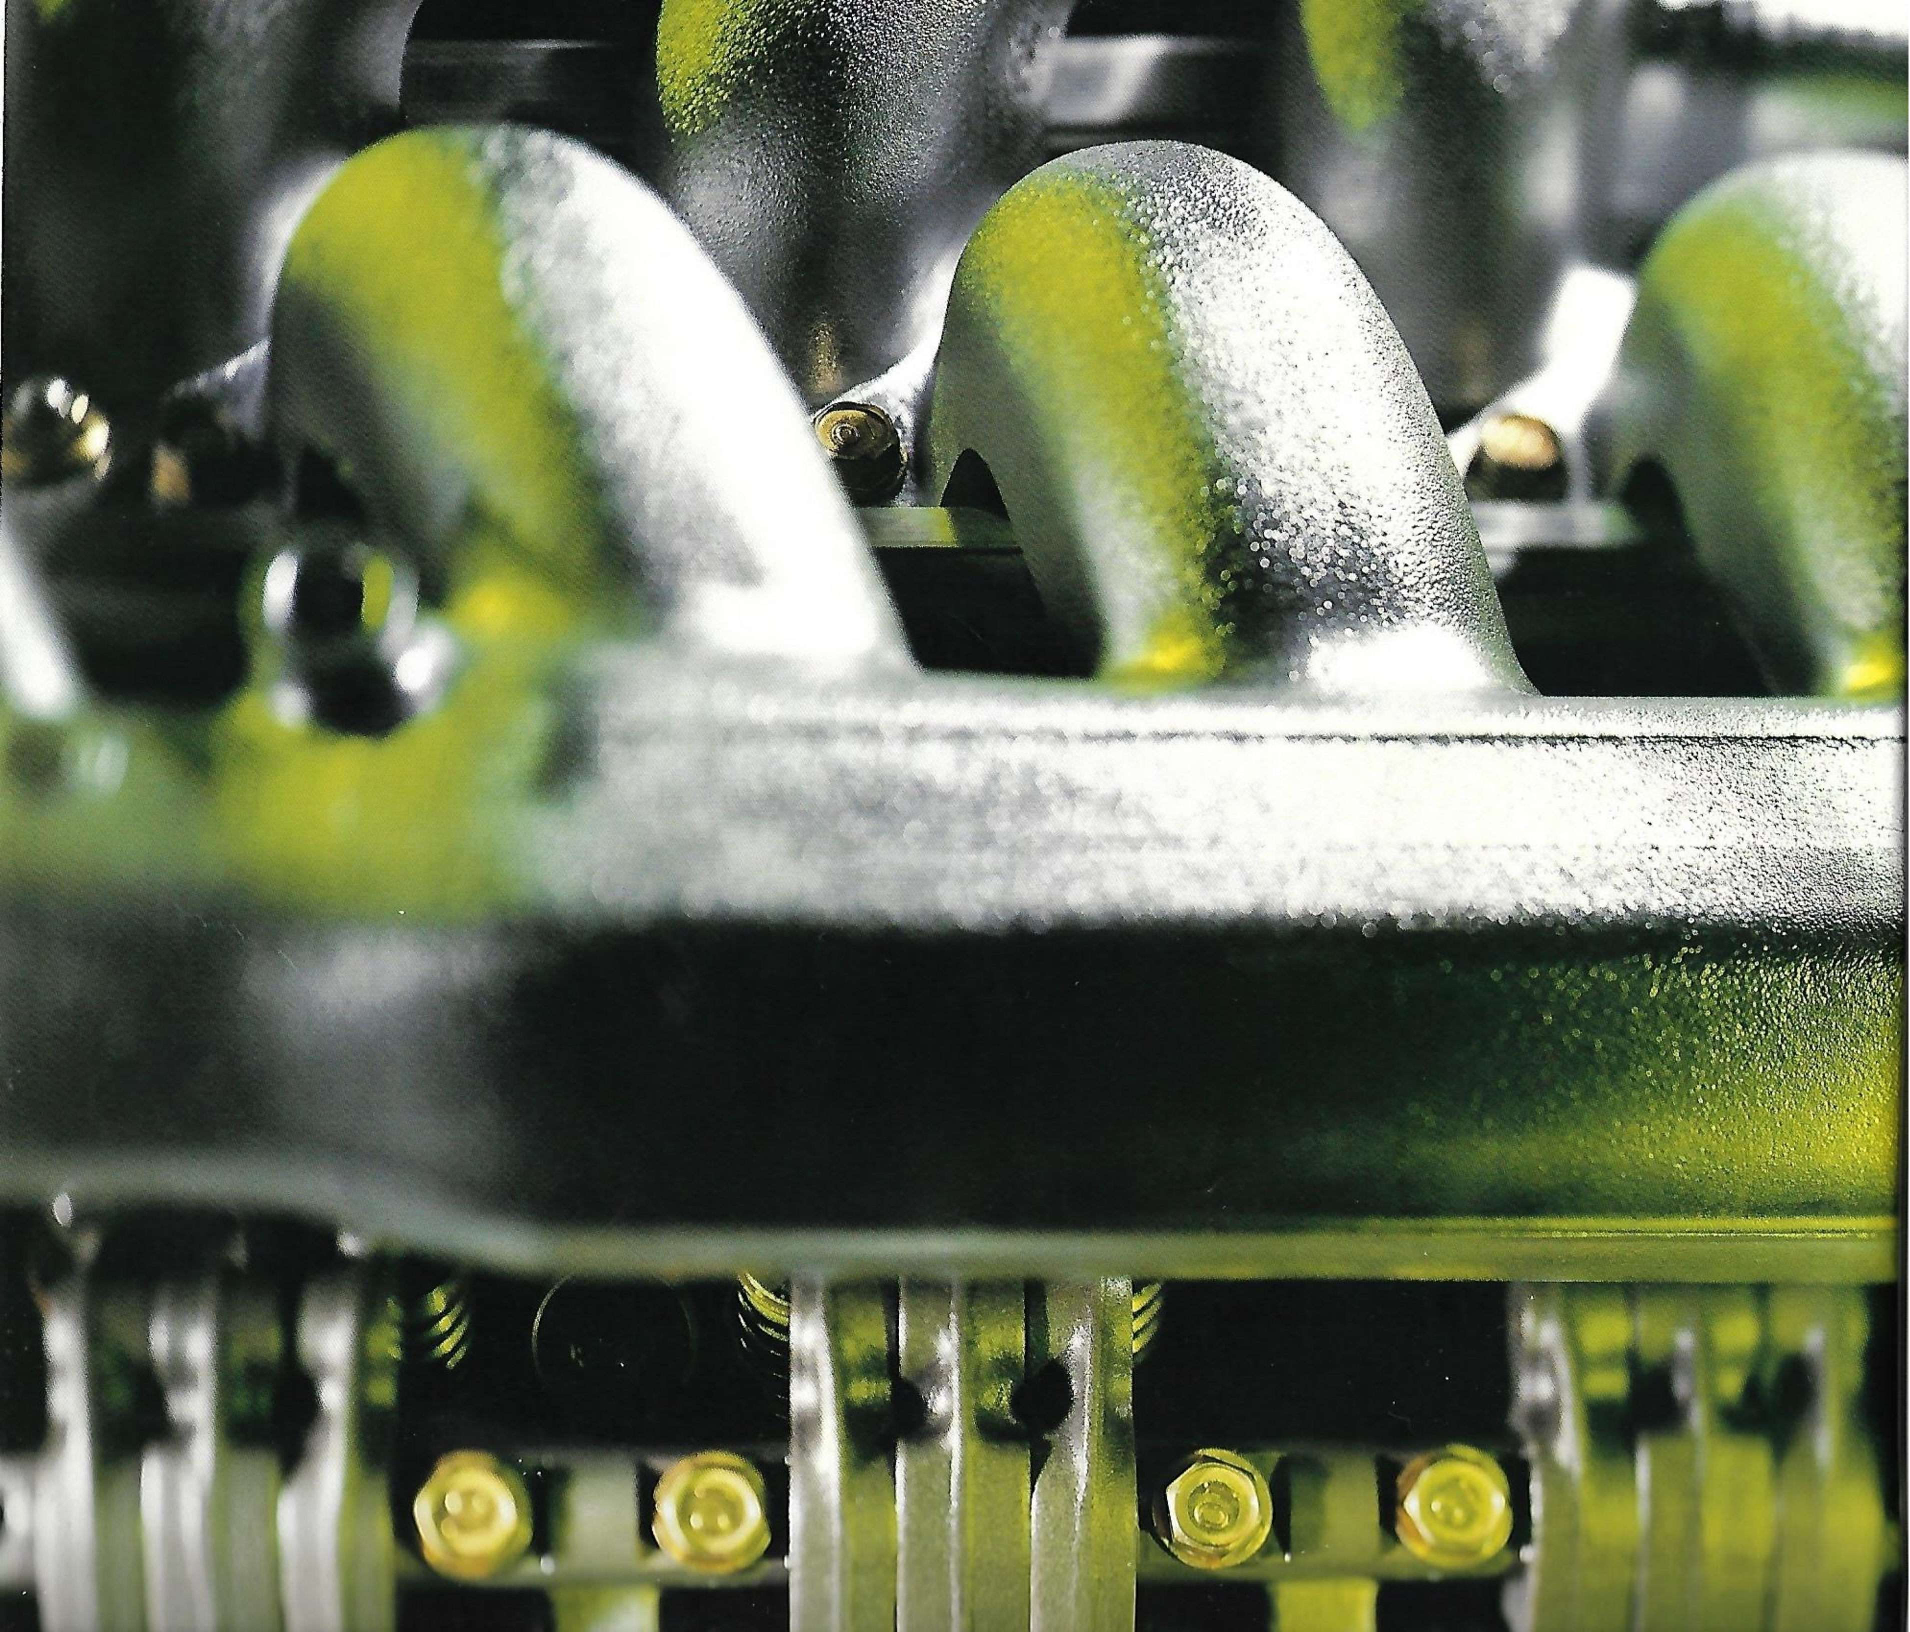

The standard **dual power sliding doors** on the EX make loading and unloading a snap. With the

The innovative **retractable center tray table** between the front seats can carry four beverages. There's also a sliding extension feature

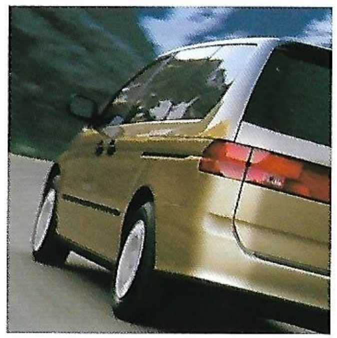

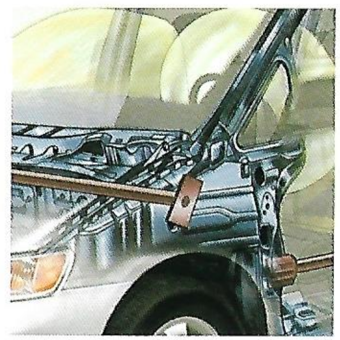

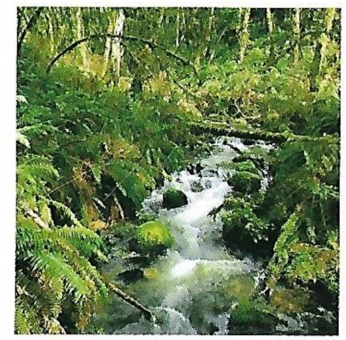

Odyssey EX instrument panel shown in Ivory with available Honda Satellite-Linked Navigation System.

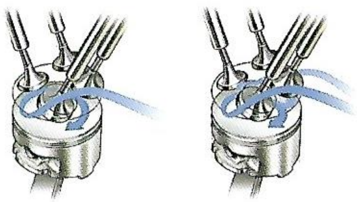

Honda is, first and foremost, an engine-building company, driven by technical innovations and engineering excellence. As a result, we've raised the minivan standard by producing a vehicle that exceeds expectations in every aspect. The goal was to design one that would drive like a car, offering superior performance and maneuverability, improved fuel

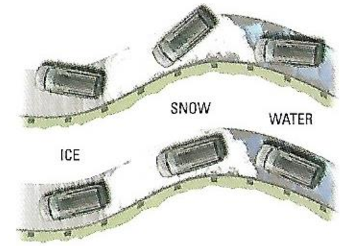

economy* and lower emissions. It would incorporate a high level of safety, be extremely versatile, and provide maximum comfort for its driver and passengers. We succeeded in reaching our goal with forward thinking and cutting-edge

Variable valve timing and lift electronic control (VTEC) allows Odyssey's V-6 engine to produce strong low-end torque and smooth power at all engine speeds.

A 4-wheel anti-lock braking system (ABS) with load-balancing Electronic Brake Distribution (EBD) helps you retain steering control even when maximum braking pressure is being applied.

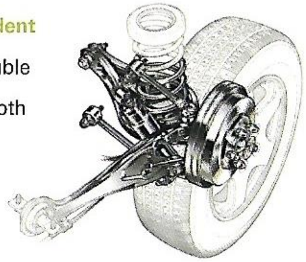

The Odyssey's standard **Traction Control System (TCS)** enhances traction and stability by using the anti-lock brakes to automatically reduce wheel spin when starting off or driving on a slippery surface.

At Honda, innovative engineering is a time-honored tradition. You can see it everywhere

Odyssey's **four-wheel independent suspension** (front strut/rear double wishbone) helps provide a smooth ride, refined handling and great maneuverability on the road.

Take a boat or travel trailer with you on your next trip. The Odyssey will **tow a maximum of 3,500 pounds** when properly equipped.

Odyssey EX shown in Dark Emerald Pearl.

The Odyssey brings Honda ingenuity to the minivan. Its 3.5 liter, 24-valve V-6 delivers 210 horsepower with the kind of fuel efficiency and depend-

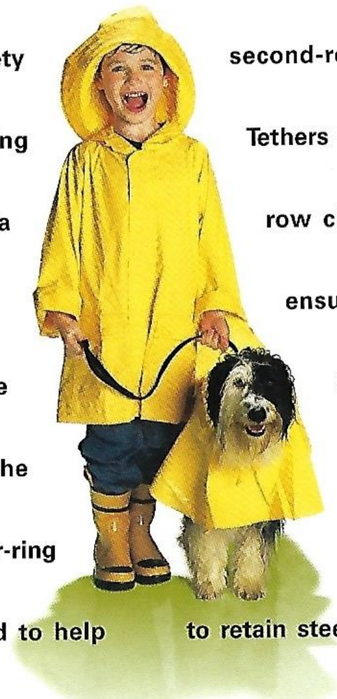

Low-Emission Vehicle (LEV) standard for light trucks. And the **first tune-up is not due for 105,000 miles.** The 4-speed automatic transmission uses the

Odyssey EX shown in Granite Green Metallic.

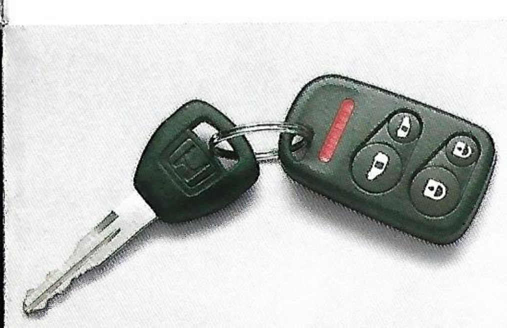

Odyssey has been awarded **5-star ratings** in testing for both frontal- and side-impact collisions by the NHTSA (National Highway and Traffic Safety Administration).

The 2001 Odyssey has been awarded a quadruple 5-star‡ safety rating – the highest possible rating – by the National Highway and Traffic Safety Administration (NHTSA). A 5-star rating means the Odyssey met the highest criteria for frontal- and side-impact protection – specifically, in its ability to help minimize injuries to you and your passengers in the event of a collision. A sophisticated four-ring body shell construction is designed to help redirect frontal- or side-impact energy into floor members and lower sills. Inside you'll discover 3-point seat belts at all seven seating positions and dual-stage driver's and front passenger's airbags (SRS).‡‡ The second-row LATCH (Lower Anchors and Tethers for Children) system and the third-row child-seat tether anchor can help to ensure correct installation of child seats. Odyssey's 4-wheel anti-lock braking system (ABS) and an Electronic Brake Distribution (EBD) system help you to retain steering control under hard braking. On slippery surfaces, a standard Traction Control System (TCS) helps to keep wheelspin to a minimum.

Dual-stage front airbags (SRS) and Odyssey's 3-point seat belts help reduce the severity of injury to front occupants in a moderate-to-severe frontal collision.

A security system with remote entry is standard on the EX and an available accessory on the LX. It will also operate the Odyssey's power side doors (EX model) from a distance of up to 50 feet.

Front and rear crush zones, a four-ring safety shell body design and steel side-impact door beams are all engineered to help provide the Odyssey with its 5-star level of occupant protection.

‡NHTSA frontal crash test conducted in March of 1999. Side crash test conducted in March of 2000. Results useful for comparison with vehicles within 500 lbs. total weight.
‡‡Honda reminds you and your passengers to always buckle up.

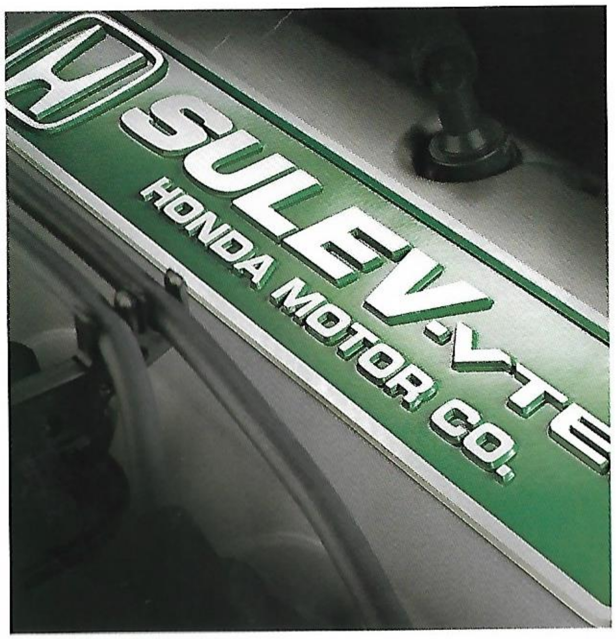

Odyssey EX shown in Taffeta White.

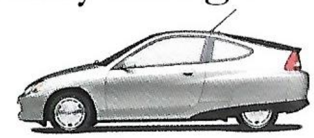

The more a minivan does for you, the more you can do.

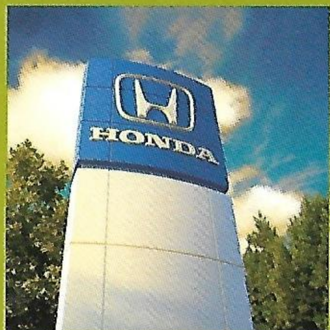

PASSPORT

reducing the impact automobiles have on  the environment. Proving that it can be done with little sacrifice to performance. In 1975, we introduced the innovative Civic CVCC, the first car to pass the federal Clean Air Act standards without the use of a catalytic converter. Ever since, our engineers have pushed the limits of design. When California's standards for Low-, Ultra-Low- and Super Ultra-Low-Emission Vehicles (LEV, ULEV and SULEV) were introduced over the past seven years, a Honda was the first gasoline-powered car

ULEV or better, every Honda does its part. From the natural-gas Civic GX, the cleanest internal combustion production-engine vehicle ever built, to the LEV-rated 240-hp S2000 roadster. With our track record, it's only fitting that we would  be the first to introduce a gasoline-electric-powered hybrid car in the United States: the Insight. This ultra-low-emission vehicle was the first car to receive the Excellence in Environmental Engineering Award from the Sierra Club. Honda will continue to lead the way in providing you

dedicated professionals is standing by to assist you. Your dealer can help personalize

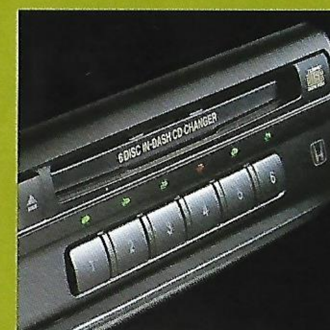

your Honda with a wide assortment of Genuine Honda Accessories. Have them installed at the time of purchase and they're covered by the 3-year/36,000-mile limited warranty.*** And our Honda-trained technicians are available to help you take care of your new car. With their vast expertise and knowledge, they'll be able to help keep your vehicle in excellent condition. After all, no one knows your Honda better. If you'd like additional information, call us at 1-800-33-HONDA. Or visit our Web site at honda.com. If you're

HONDA Finance

If you want quality service and dependable nationwide support, turn to **American Honda Finance Corporation.** They can assist you with your next purchase of a Honda automobile or product.

HONDA CARE

Honda Care is a comprehensive, affordable vehicle and travel protection plan that is backed by Honda reliability, service and parts. Check with your dealer for additional information.

Enjoy listening to your favorite music on our **in-dash CD changer.** It can accommodate up to six discs and has a variety of functions. And thanks to the advanced design, you shouldn't hear a single skip.

Create a convenient **adjustable roof rack** by adding cross bars to your Odyssey EX roof rails. It has a capacity of 100 pounds, and there are optional attachments for skis, a snowboard or even your bike.

Other available accessories:

- Air Deflector
- Fog Lights
- 16" Machine-Finished Alloy Wheels
- Wood-Grain Trim Kit
- Wood-Grain Steering Wheel
- Roof Rack
- Trailer Hitch
- Cargo Tray
- Interior Bike Attachment
- Full Nose Mask
- Splash Guards
- Fenderwell Trim
- CD Player
- Cassette Player
